- SharePoint Designer 2010
- Microsoft Team Foundation Server
- WCF Web services
- C#
- Ajax
- JQuery
- Telerik

▪ **Abu Dhabi Tourism & Culture Authority – Authentication Portal (<https://accounts.tcaabudhabi.ae>)**

Abu Dhabi Tourism & Culture Authority facilitates its partners / users to use its specific applications via its corporate portal or direct links. For all those applications, Open SSO is used as authentication. Previously authority has embedded authentication model into its corporate site. Now it needs to be separated from the corporate portal so that different applications can use the authentication as per their own design standards.

Roles and responsibilities:

- Requirement Analysis and System design as per Authority's standards
- Development, testing and deployment of the application

Tools and Technologies:

- SharePoint Server 2013
- Microsoft Visual Studio 2013
- Microsoft Team Foundation Server
- C#
- Ajax
- JQuery
- Telerik

▪ **Manarat Al Saadiyat (<http://manaratalsaadiyat.ae>)**

MAS is the place and space in Abu Dhabi for art, cultural activities and community events; where everyone can come together to share, consider, and create all types of creative artistic expression.

Roles and responsibilities:

- Requirement Analysis and System design as per Authority's standards
- Project management and development lead
- Development, testing and deployment of the application

Tools and Technologies:

- SharePoint Server 2013
- Microsoft Visual Studio 2013
- Microsoft Team Foundation Server
- C#
- Ajax
- JQuery
- Telerik

▪ **Abu Dhabi Music (<http://abudhabimusic.ae>)**

The Abu Dhabi Music program brings to the Emirate some of the main artists in the field of Arabic and Western classical music, aiming at the same time to display how borderlines between the so called "Western", "Arabic" and "Local" classical music have become porous. At the same time, TCA Abu Dhabi is offering an extended program dedicated to regional heritage music thus proposing a unique musical panorama for all listeners.

Roles and responsibilities:

- Requirement Analysis and System design as per Authority's standards
- Development lead and mentor for junior members
- Development, testing and deployment of the application

Tools and Technologies:

- SharePoint Server 2013
- Microsoft Visual Studio 2013
- SharePoint Designer 2013
- Microsoft Team Foundation Server
- C#
- Ajax
- JQuery
- Telerik

▪ **Abu Dhabi International Book Fair (<http://adbookfair.com>)**

This Abu Dhabi International Book Fair website provides informative service on Abu Dhabi International Book Fair and available programs, events, exhibitors, and books catalog.
